

## Valentina Brugnattelli

### Biography :

Born in Italy to a Danish mother and an Italian father, I was raised in Switzerland.

This international upbringing has certainly influenced my taste and my sensibility to different sources of inspiration, be it design, art or architecture.

I studied fashion design in Paris in the late 80's.

I work as a consulting designer, both for costume and fine jewellery for renowned luxury fashion brands.

I believe a jewel needs to contain a strong idea, a concept : an element that doesn't relegate it only to something decorative.

It is essential that it tells a story and triggers an emotion, be it curiosity, wonder or surprise.
